

# Virtual Visits

Get access to care online.  
Any where. Any time.

When you don't feel well, or your child is sick, the last thing you want to do is leave the comfort of home to sit in a waiting room. Now, you don't have to.

A virtual visit lets you see and talk to a doctor from your mobile device or computer without an appointment. Most visits take about 10-15 minutes and doctors can write a prescription\*, if needed, that you can pick up at your local pharmacy. And, it's part of your health benefits.

## Conditions commonly treated through a virtual visit

Doctors can diagnose and treat a wide range of non-emergency medical conditions, including:

- Bladder infection/  
Urinary tract infection
- Diarrhea
- Rash
- Bronchitis
- Fever
- Sinus problems
- Cold/flu
- Migraine/headaches
- Sore throat
- Pink eye
- Stomach ache

## Access virtual visits

Log in to **myuhc.com**® and choose from provider sites where you can register for a virtual visit. After registering and requesting a visit you will pay your portion of the service costs according to your medical plan, and then you will enter a virtual waiting room. During your visit you will be able to talk to a doctor about your health concerns, symptoms and treatment options.

To learn more, login to [myuhc.com](http://myuhc.com)

## Use virtual visits when:

- Your doctor is not available
- You become ill while traveling
- You are considering visiting a hospital emergency room for a non-emergency health condition

## Not good for:

- Anything requiring an exam or test
- Complex or chronic conditions
- Injuries requiring bandaging or sprains/ broken bones

\* Prescription services may not be available in all states.

Access to virtual visits and prescription services may not be available in all states or for all groups. Go to myuhc.com for more information about availability of virtual visits and prescription services. Always refer to your plan documents for your specific coverage. Virtual visits are not an insurance product, health care provider or a health plan. Virtual visits are an internet based service provided by contracted UnitedHealthcare providers that allow members to select and interact with independent physicians and other health care providers. It is the member's responsibility to select health care professionals. Care decisions are between the consumer and physician. Virtual visits are not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times or in all locations. Members have cost share responsibility and all claims are adjudicated according to the terms of the member's benefit plan. Payment for virtual visit services does not cover pharmacy charges; members must pay for prescriptions (if any) separately. Insurance coverage provided by or through UnitedHealthcare Insurance Company or its affiliates. Administrative services provided by United HealthCare Services, Inc. or their affiliates.

# Virtual visits

## Access to care online at any time

A virtual visit lets you see and talk to a doctor from your mobile device or computer. Review the frequently asked questions to learn more about virtual visits.

### Frequently asked questions

Questions	Answers
<b>Are virtual visits covered under my health plan? What kinds of medical services can be provided using a virtual visit?</b>	Yes, when you use one of the provider groups in our virtual visit network, you have benefit coverage for certain non-emergency medical conditions like the flu, colds, pink eye, rashes and fevers. Check your plan documents for more information about your plan's specific virtual visit benefit.
<b>How much and when will I have to pay for a virtual visit?</b>	Your member cost share amount will vary depending on your plan. Please refer to your specific plan documents to determine what your member cost share will be. Applicable costs must be paid by you at the time of the virtual visit and will apply toward your deductible and out-of-pocket maximum. You can use a credit or debit card to pay, including a health savings account debit card if you have one. Use the health care cost estimator tool on <a href="https://myuhc.com">myuhc.com</a> <sup>®</sup> for more specific information about provider group costs.
<b>Where can I find out what providers are in the virtual visit network and how do I access them?</b>	For information about what virtual visit provider groups are in the network, including the states in which each provider group operates, log in to <a href="https://myuhc.com">myuhc.com</a> . You also can access the provider groups through the UnitedHealthcare Health4Me <sup>®</sup> app or by going directly to a network virtual visit provider group's mobile app or website.
<b>What should I consider when choosing a network virtual visit provider?</b>	You are able to choose from any of our network virtual visit providers. Some things to consider when choosing a virtual visit provider are listed below. <ul style="list-style-type: none"><li>• Does the provider group operate and prescribe in the state you are when you need care?</li><li>• On average, how much experience do the physicians in the provider group have?</li><li>• Do you like the provider group's website and/or mobile app experience?</li><li>• How is the provider's mobile app rated by other consumers?</li><li>• How much will you pay for a virtual visit with a specific provider group?</li></ul>
<b>Some virtual visit provider groups list other services like nutrition counseling, lactation services, therapy and psychology services. Are these covered under my virtual visit benefit?</b>	Not at this time. While you can choose to receive these additional services from the virtual visit provider, the services will not be covered under your virtual visit benefit and you will be responsible for the full cost. The costs for these services will not count toward your deductible (if applicable) or out-of-pocket maximum.
<b>How long is the wait to see a doctor once I am at the provider group's site? Can I schedule an appointment instead of waiting?</b>	Virtual visit provider groups are expected to deliver care within 30 minutes or less from the time of a patient's request. You also are able to schedule an appointment for another time with a virtual visit doctor.
<b>Am I required to have a PCP in order to use a virtual visits network provider?</b>	No, it is not a requirement and you do not need a referral to use a virtual visit.

## Frequently asked questions continued...

Questions	Answers
<b>What happens once I reach the virtual visit provider group's website? What happens during an actual virtual visit?</b>	<p>The first time you use a virtual visit provider you will need to set up an account with that virtual visit provider group. You will need to complete the patient registration process to gather medical history, pharmacy preference, primary care physician contact information and insurance information.</p> <p>Each time you have a virtual visit, you will be asked some brief medical questions, including questions about your current medical concern. If appropriate, you will then be connected using secure live audio and video technology to a doctor licensed to deliver care in the state that you are in at the time of your visit. You and the doctor will discuss your medical issue, and if appropriate, the doctor may write a prescription* for you.</p> <p>* Prescription services may not be available in all states.</p>
<b>Will virtual visit information be shared with my Primary Care Physician (PCP)?</b>	<p>We encourage you to provide your PCP information to the virtual visit provider so that virtual visit records can be sent directly to your PCP. You also may be able to access your virtual visit record with the virtual visit provider group, so you can provide the records directly to your PCP or other health care providers as desired.</p>
<b>How safe is the information being shared during a virtual visit appointment?</b>	<p>UnitedHealthcare requires all network providers, including virtual visit providers, to comply with all applicable laws, including laws relating to the security and confidentiality of patient information. Virtual visit providers are covered entities under HIPAA and its regulations. Therefore, these providers have direct legal requirements to protect and secure confidential patient information. Virtual visit providers determine the manner and means by which they meet these privacy and security requirements. Additional information regarding security and privacy is available at each virtual visit provider group's website.</p>
<b>Can my child or underage dependent use virtual visits?</b>	<p>Yes. In general a parent or legal guardian must be present when the virtual visit is conducted with a minor dependent who is covered under your plan.</p>
<b>If the virtual visit provider writes a prescription for me, how do they get the prescription to my local pharmacy?</b>	<p>Virtual visit doctors use e-prescribing to submit prescriptions to the pharmacy of your choice. Costs for prescription drugs are based on, and payable under, your pharmacy benefit. They are not covered as part of your virtual visit benefit. Not all virtual visits will result in the issuance of a prescription. Prescriptions are provided only when appropriate.</p>
<b>Are additional languages (besides English) supported by virtual visit provider groups?</b>	<p>Yes. Specifics vary by virtual visit provider group. All virtual visit provider groups offer some Spanish-speaking physicians, although not in all states. Additional information is available at each virtual visit provider group's website.</p>
<b>I paid for my Virtual Visit when I received care, and then I got a reimbursement for that amount from the provider. Why is that?</b>	<p>There are certain benefit plans where UnitedHealthcare automatically pays providers for a member's visit. Because the payment is made after the visit and generally providers don't know in advance of your visit about your benefit plan setup, providers who require you to pay at the time of the visit have a reimbursement process. The provider will reimburse you as quickly as possible for the amount you paid at the time of service. An example of a benefit plan where this happens is a Health Reimbursement Account (HRA) with a co-insurance/deductible plan. You can check for additional claim payment information by visiting <a href="http://myuhc.com">myuhc.com</a>.</p>
<b>I have the UnitedHealthcare Health4Me app downloaded on my phone but I can't see the virtual visits content.</b>	<p>You might have to update the Health4Me app to the latest version. You can download the latest version via the Apple® App Store® or Google Play™ store for Android® devices, or update your setting to get automatic updates.</p>

### Access virtual visits:

- Log in to [myuhc.com](http://myuhc.com)® to learn more
- Choose from provider sites where you can register and receive care.

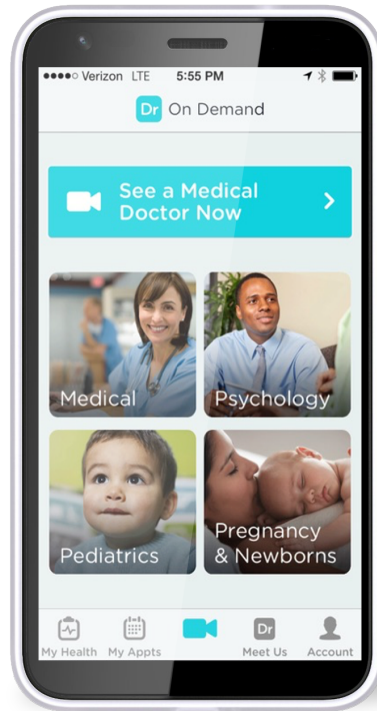

Access to virtual visits and prescription services may not be available in all states or for all groups. ## A Virtual Visit lets you see talk with a doctor from your laptop or mobile device.

You have access to a network of Virtual Visit provider groups. To learn more about Virtual Visits and our network please log into [myuhc.com](http://myuhc.com)® or the UnitedHealthcare **Health4Me**® app.

Once you choose a Virtual Visit provider group you'll be directed to their website from [myuhc.com](http://myuhc.com) or their app from Health4Me. You also have the option of going directly to their website or app to access care. You can download their app directly from [Google Play](https://play.google.com)™ or the [Apple](https://www.apple.com)® [App Store](https://www.apple.com)®.

Virtual Visits are covered under your health plan benefits either way you decide to access care.

## Tips for registering:

Locate your member ID number on your health plan ID card

Or look up your number on [myuhc.com](http://myuhc.com).

Have your primary care provider name and medical history ready.

Choose a pharmacy that's open in case you're given a prescription.
